THIS wide-fronted terrace has been given a modern update which has added an extra level of luxury.

The home is on a deep 165 sqm block and spans three levels. Every space has been well thought out: blackbutt flooring runs throughout the home and combines with frameless glass and high ceilings on every level. The living and dining area has a gas fireplace and adjoins a glass wrapped alfresco atrium.

The marble topped kitchen has Smeg appliances and a glass

splashback. Stepping through is a large family room which extends out to the paved terrace and easy-care garden.

The four bedrooms are on the upper level and feature built-in wardrobes. The main bedroom has an ensuite. The upper level loft bedroom also includes an ensuite and superb storage spaces.

Extras include a security alarm, ducted airconditioning, Italian marble features in the bathrooms, a powder room and laundry.

The terrace at 20 Cambridge St, Enmore has been transformed into a stunning modern home.
