Hi Luke

The NSW Department of Health is appreciative of the professionalism and negotiating skills of you and your team at Raine & Horne Commercial Marrickville which led to the successful sale of our former Community Health Centre property at 159 Livingstone Road, Marrickville in 2008, following an expressions of interest process. The marketing campaign was well conducted and we were provided with progress reports on prospective purchasers. We will certainly consider using your services again should any further properties become available for sale in the area.

Regards

Jeff Pollard
